

# NetApp for SAP

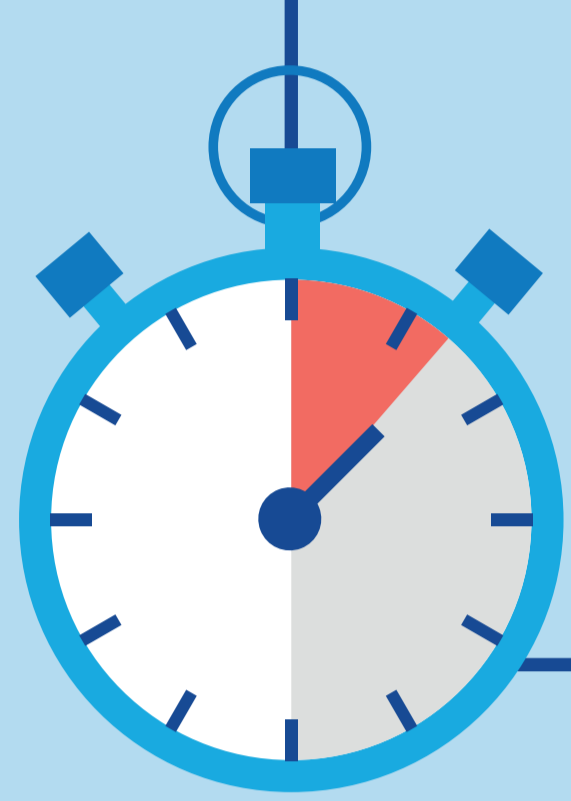

## 10 GOOD REASONS

### 01 DATA PROTECTION IN SECONDS

Rapid Backup and Recovery with no impact on production performance. Minimizes unplanned downtime. Efficient replication to offsite backup locations or cloud providers.

01

### 02 SAP SYSTEM COPIES IN LESS THAN 10 MINS

No more need for working nights or weekends: Create instant, autonomous SAP system clones with less than 10% add. disk space. No impact on production - created any time.

02

### 03 ACCELERATE PROJECTS BY > 70 %

Fast, easy system copies enable our customers to shorten development cycles, while achieving greater integrity and maintaining a more reliable SAP environment. This enables more testing in less time without disrupting the production environment.

03

### 04 INDUSTRY LEADING CLOUD INTEGRATION

Easily swap workloads to cloud resources and back. Stay cloud provider independent. Be prepared for any future deployment models.

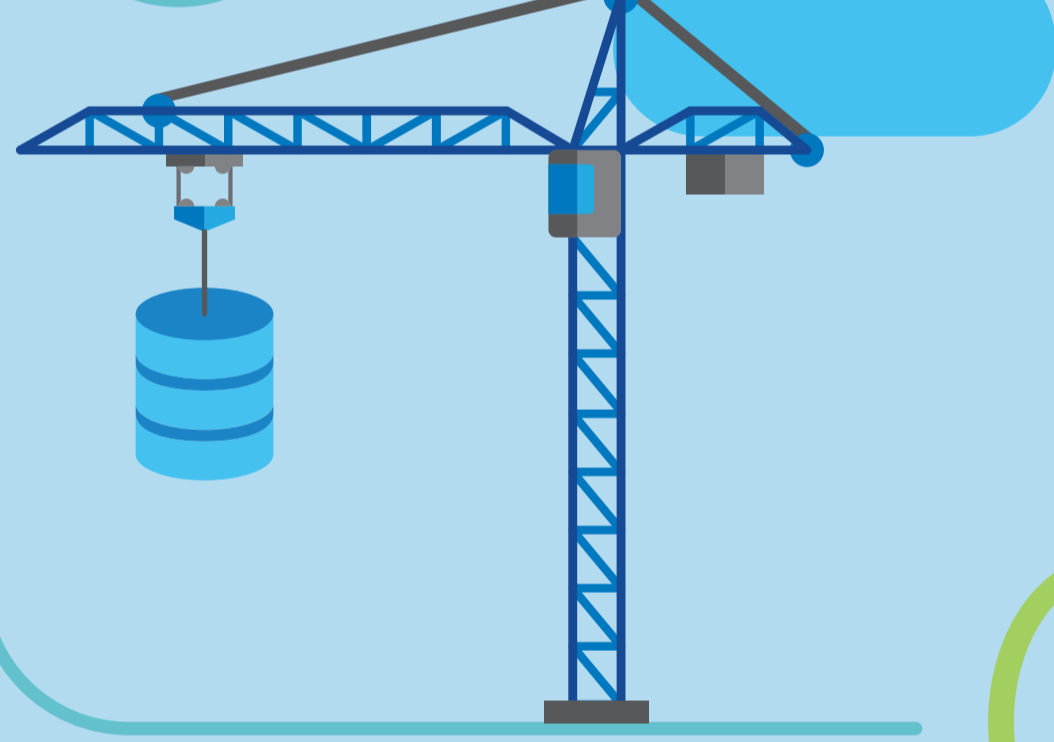

04

### 05 EXPERIENCED HANA TDI SUPPLIER

Buy what you need when you need it: Large set of certified storage solutions and validated converged designs combining all-flash performance, plug & play deployment, and seamless scalability.

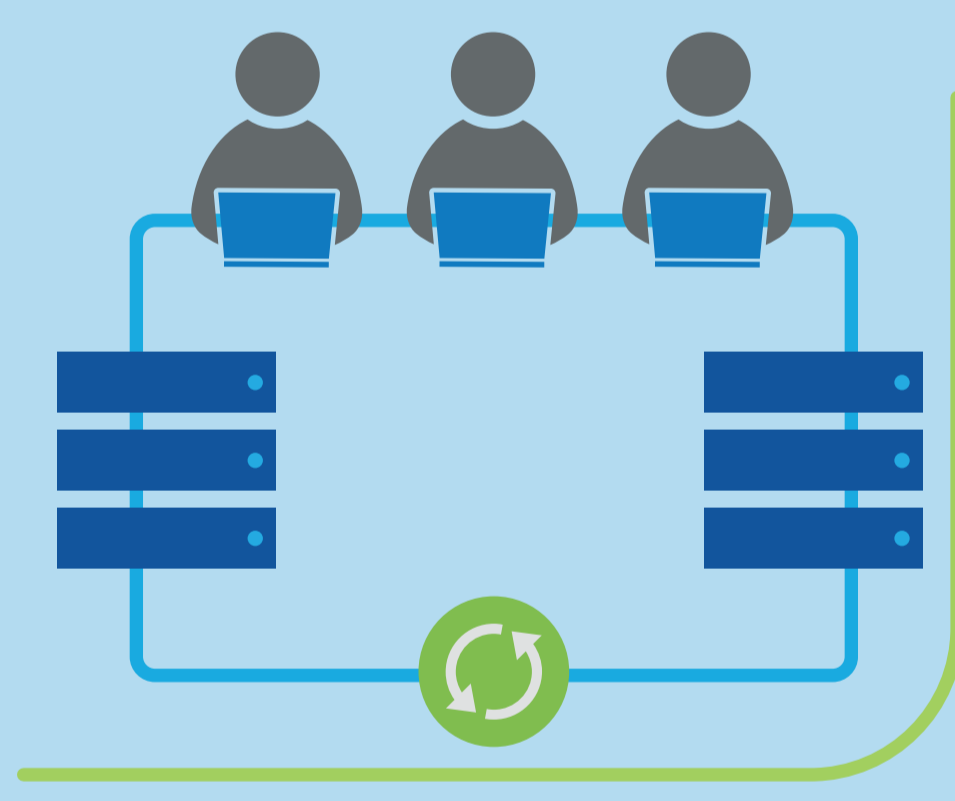

05

### 06 DR SITE AS A TEST SITE FOR FREE

Use your Disaster Recovery or off site backup actively, for Test/Dev and DR testing purposes at no extra effort.

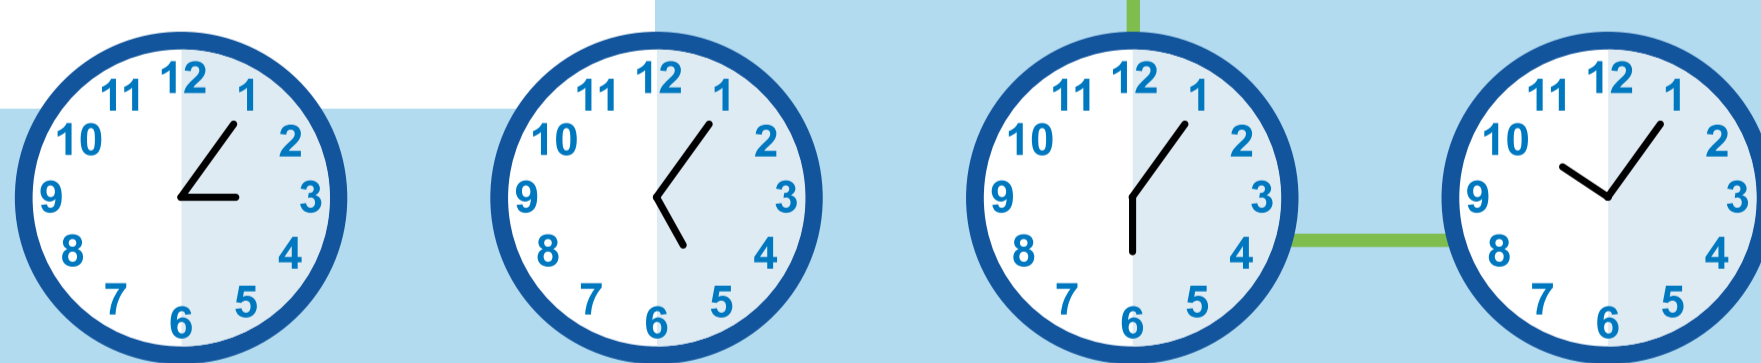

06

### 07 SEAMLESS HIGH AVAILABILITY

Proven non-disruptive 99.9999% operations with automatic load-balancing in case of incidents or maintenance.

07

### 08 HIGHLY INTEGRATED INTO SAP APPLICATION

Easy and highly automated storage management for all SAP supported databases, fully integrated into tools such as SAP Landscape Management and SAP HANA cockpit.

08

### 09 TRUSTED, PROVEN VENDOR FOR SAP

Thousands of customers worldwide, across all industries have trust in running SAP on NetApp, with the highest grade of satisfaction.

09

### 10 17 YEARS OF CO-INNOVATION

Intensive SAP partnership ensures frictionless, effective and integrated storage management. Strong ECO System Partner Landscape with joined solutions and customer references.
